SUMMARY

B.Tech IT student with strong foundations in Java, JavaScript, and Data Structures & Algorithms. Skilled in efficient coding and solving complex problems. Interested in full-stack development and modern web technologies.

EDUCATION

Bachelor of Information Technology, St. Joseph's Institute of Technology
CGPA: 8.61

2023 – Present

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, Python, C
Web Development:	HTML, CSS, JavaScript, React.js
Database:	MySQL, Firebase, Supabase
Core CS:	Data Structures (140+ problems – LeetCode), Algorithms, OOPS
Tools:	Git, GitHub, VS Code, IntelliJ IDEA

PROJECTS

Stufi — Student Management & Virtual Study Portal

- Built a role-based portal with dashboards, virtual rooms, attendance tracking, and leave/OD workflows.
- Improved UI structuring and workflow automation using HTML, CSS, and JavaScript.

Campus Issue Reporting & Management System — MERN Stack

- Built a full-stack campus maintenance portal with RESTful APIs enabling students to raise issue reports with image attachments and administrators to monitor, update, and resolve them through a centralized dashboard in real time.
- Architected JWT-based role authentication with protected routing for Student/Admin access control and integrated Cloudinary for efficient media handling within issue submissions.

Instagram Clone — React.js

- Developed an Instagram-style web app with posts, stories, and profile editing using React.js and JSON Server.
- Implemented reusable components, Hooks-based state management, REST API calls, and smooth data synchronization.

CERTIFICATIONS

Infosys Springboard – Network & Web Tech
NPTEL – Python
NPTEL – Java
Cloud Computing Certification
Postman API Fundamentals

ADDITIONAL INFORMATION

Soft Skills: Problem-Solving, Logical Reasoning, Team Collaboration

Languages: English, Tamil

Hackathons: Participated in inter-collegiate hackathons demonstrating teamwork and innovation.
